# Better Performance: Workstation Solutions

## ThinkPad P16 Mobile Workstation

Power your next animation or science project with this professional mobile workstation—with its fresh, modern look and high-speed processing.

- Powered by the latest Intel® Core™ i9 HX processors
- 16" screen to show off your latest and greatest projects
- Built-in Lenovo ThinkShield security to safeguard your data

[LEARN MORE](#)

## ThinkPad P16s Mobile Workstation

Bring engineering projects and innovative designs to life and experience next-gen storage with ThinkPad P16s, built for seamless multitasking on a 16" screen.

- Latest Intel® Core™ processors and all-day battery capacity
- Intel WiFi 6E and Intel Thunderbolt 4 for superb connectivity
- Number pad, glass-like touchpad, and webcam privacy shutter

[LEARN MORE](#)

## ThinkStation P360 Ultra Workstation

Power any science lab and configure your ThinkStation P360 Ultra to work best for you with high-powered performance packed into a small device.

- Up to the latest Intel® Core™ i9 processors
- Seven USB ports, including two Thunderbolt 4 ports to maximize flexibility
- MIL-SPEC tests to ensure performance wherever you choose to work

[LEARN MORE](#)

## ThinkPad P1 Gen 5 Mobile Workstation

Make workloads more manageable and power your next great film on a visually stunning 16" screen with ThinkPad P1 Gen 5 Mobile Workstation.

- Up to 12th Gen Intel® Core™ i9 H Series processors
- Low blue light and X-Rite Factory color calibration for color accuracy
- Up to 165Hz super speedy refresh rate

# Enhanced Efficiency: ThinkCentre Desktop Solutions

## ThinkCentre M90q Tiny Gen 2

Dealing with large projects? This secure and stylish desktop, with high-capacity storage, can help you boost productivity and manageability while fitting into any workspace.

- Powered by vPro® with 12th Gen Core™ i7 processors
- Easy upgrades with expansion slots and add-ons to evolve with your tech
- Modern standby keeps your PC up to date, even during sleep mode

[LEARN MORE](#)

## ThinkCentre M70q Tiny

Meet maximum efficiency with ThinkCentre M70q Tiny Gen 2, reinforced by convenience and configurability, thanks to six USB ports and ThinkShield security solutions.

- Powerful Intel® Core™ i9 processors to cruise through to-do lists faster
- Smart Power On, a simple keyboard shortcut, to enable remote power-up
- BIOS-based Smart USB Protection to prevent unauthorized users from accessing your files

[LEARN MORE](#)

## ThinkCentre M90a Gen 3 All-In-One PC

Feel complete power on a sleek, 23.8" screen with stunning graphics and enhanced security features. ThinkCentre M90a is designed to save space with phone and keyboard docks.

- High performance Intel vPro® platform with up to 12th Gen Core™ i9 processors
- Designed with sustainability and energy-efficiency in mind
- Intelligent Cooling Engine to keep your cool during demanding engineering projects

[LEARN MORE](#)

## ThinkCentre M90t Gen 3 Tower

ThinkCentre M90t Tower combines mobility and power with WiFi 6E to support seamless communication. Plus, tested in harsh conditions, ensure durability wherever you choose to work.

- Built with 12th Gen Intel® Core™ i9 processors
- End-to-end security to protect sensitive information and large files
- Up to 128 GB memory and upgradeable with a host of advanced graphic options

[LEARN MORE](#)

## Putting Tech to the Test: The Ultimate Research Lab

Today, with the ever-evolving world of software innovation, it's more important than ever for school research labs to contain high-powered computers to ensure uninterrupted productivity. **ThinkCentre M90t Gen 3 Tower** is designed with that in mind—inspiring the world's next big idea, and empowering animators, designers, and engineers.
